

## 55% citizens of Madhya Pradesh paid a bribe in the last 1 year

- Municipal Corporation emerges as a major area of corruption in Madhya Pradesh

**28<sup>th</sup> November 2019, New Delhi:** LocalCircles in collaboration with Transparency International India has conducted its National Survey to ascertain the level of corruption in the country and check the citizen pulse on it for the third consecutive year. The data collected from the survey has been compiled in a comprehensive report called the 'India Corruption Survey 2019'. Over 120,000 responses were received from over 40,000 unique citizens from across India.

The Prevention of Corruption (Amendment) Act 2018 was hailed as a force that would deter the Government employees from indulging in bribery. Looks like it is starting to show some effects, as is evident from the numbers from this year's survey. India's ranking in the Corruption Perception Index 2018 released by Transparency International, has improved 3 places compared to last year and we now stand at 78th position out of 180 countries.

The survey was also conducted on a state level where over 2200 votes were received from Madhya Pradesh. 55% citizens of Madhya Pradesh who participated in the survey admitted to paying a bribe to get their work done, out of which 22% gave bribes several times (directly or indirectly) while 33% paid bribes once or twice (directly or indirectly). 12% said they got work done without paying a bribe and 33% did not have a need.

**Madhya Pradesh: How many times did you pay a bribe (directly or indirectly) to local authorities in the last 1 year?**

**55% citizens of Madhya Pradesh paid a bribe in last 1 year**

This number stood at 50% last year, showing a rise in cases of corruption in the state in the last 12 months.

## **Results of the National Survey**

According to the Prevention of Corruption Act 2018, giving a bribe is an offence with up to 7 years of imprisonment or fine or both. In the first question, 24% citizens admitted to giving bribes several times in the last 12 months and 27% admitted to paying bribes once or twice. 16% said they always managed to get work done without paying a bribe while 33% said they did not have a need

Cash is still the primary mode used to pay bribes with 35% saying they paid cash as bribes in the last 12 months to get their work done. 30% said they paid indirectly through an agent and 6% said they paid in form of gifts or other favors. 29% said they did not have a need to pay bribes.

When asked in Government offices where they paid a bribe in the last 12 months how was the working of that office, 16% said it was computerised and had functional CCTVs in place, 28% said it was computerised but had no/defunct CCTVs in place while 19% said it was an all paper office. 37% said they did not need to pay a bribe.

38% citizens said that they paid a bribe as it was the only way to get work done while 26% said it would have taken a long time and effort without a bribe. 37% said they did not have to pay a bribe.

6% in the following poll said that steps have been taken by their state Government or local administration to reduce corruption in the last 12 months and they have been effective while 34% said some steps have been taken but they have largely been ineffective. 48% said no steps have been taken at all.

Last year, the central Government identified some staff in the Finance Ministry who had corruption charges against them and relieved them of their duty. It did the same this year in CBIC and CBDT, hence setting a precedence that corruption in Government departments will not be tolerated. It is imperative that various state Governments follow suit and the coloured employees are separated from the chain. Property registration & land issues turned out to be the largest authority where citizens had to pay a bribe, with 26% citizens voting for it. 19% said police, 13% said municipal corporation, 3% said electricity board, 13% said transport office, 8% said tax department and 5% said water department. 13% said they paid a bribe to other authorities.

17% citizens believe bribery in tax-related matters has reduced in the last 12 months while 6% said it has increased. 38% said it is continuing like before and 33% said they did not have a need to pay a bribe.

Only 12% citizens believe bribery in property registration and land issues has reduced in the last 12 months. 49% said bribery is continuing like before and 8% said it has increased. 9% said they did not need to pay a bribe.

When it came to demanding of bribes for work related to the municipality or local bodies, 10% citizens said it has reduced while 44% said it is continuing like before. 13% said bribery has increased and another 13% said they did not need to pay a bribe in the last year.

19% citizens said they believe bribery in RTO related matters has reduced while 37% said it is the same as before. 9% said it has increased while 14% said they did not have a need to pay a bribe.

11% said bribery to police has reduced while 11% said it has increased. 42% said it is the same as before. 20% did not have a need to pay a bribe.

**Delhi, Haryana, Gujarat, West Bengal, Kerala, Goa and Odisha** turned out to be the states where citizens reported low instances of corruption, while **Rajasthan, Bihar, Uttar Pradesh, Telangana, Karnataka, Tamil Nadu, Jharkhand and Punjab** were the states where citizens reported higher instances of corruption
